IB Diploma Programme 2027–2028

Course Selection Sheet

Name: _____

How your choices will be used: This form will help the school identify students' interest in individual subjects. Based on the responses, the school will establish five or six subject pathways, each comprising a fixed combination of six subjects. The draft pathways on the following page are illustrative suggestions only, not final subject combinations. Students will then choose from the pathways offered by the school.

Instructions for selecting your subjects

- Choose six subjects. In Group 1, select a language for native or near-native speakers.
- **Choose one subject from each of Groups 2–5. Alternatively, choose two Group 1 subjects in different languages and take no Group 2 language acquisition subject.**
- For your sixth subject, choose an additional subject from Groups 1–4 and indicate its level.
- Select 3 HL and 3 SL subjects, or 4 HL and 2 SL subjects. Mathematics is compulsory.
- Where both levels are offered, tick your preferred level. HL and SL differ in teaching time, depth and breadth, and sometimes content.

Example: English A: language and literature + Slovak A: literature; no Group 2 subject is required.

ESS: Environmental systems and societies is an interdisciplinary subject that meets the requirements of both Groups 3 and 4; select it only once.

Darker grey cells = level not taught. Tick your choices in the available SL or HL cells.

Subject group	Subjects	SL	HL	Concerns or remarks
Group 1 Studies in language and literature (Language A)	Slovak A: literature			
	English A: language and literature			
	The student's mother tongue or strongest language — SSST			
Group 2 Language acquisition (Language B)	English B (B2/C1)			
	German B (B1/B2)			
	Spanish ab initio (A1–A2)			
Group 3 Individuals and societies	Economics			
	Geography			
	History			
	Psychology			
	Environmental systems and societies (ESS)			
Group 4 Sciences	Biology			
	Computer Science			
	Chemistry			
	Physics			
	Environmental systems and societies (ESS)			
Group 5 Mathematics	Mathematics: applications and interpretation			
Sixth subject Additional subject from Groups 1–4	Additional subject: _____			

This initial selection is non-binding. Please send the completed sheet to the DP Coordinator Svetlana Veselova at ib@gymnaziumceska.sk

IB Diploma Programme 2027–2028

Six draft subject pathways

Each pathway contains six subjects: three HL and three SL. A slash (/) means choosing one of the two subjects, at the level shown.

Pathway	Higher level — 3 subjects	Standard level — 3 subjects
1	Biology Chemistry English A / English B	Slovak A: literature / SSST* Economics Mathematics AI
2	Physics Computer Science Mathematics AI	English A: language and literature German B / Spanish ab initio Economics
3	Economics Mathematics AI English A / English B	Slovak A: literature / SSST* Environmental systems and societies History
4	English A / English B History Economics	Slovak A: literature / SSST* Biology Mathematics AI
5	Psychology Biology English A / English B	Slovak A: literature / SSST* Economics Mathematics AI
6	English A: language and literature Geography Environmental systems and societies	German B / Spanish ab initio Economics Mathematics AI

*** SSST:** School-supported self-taught Language A: literature (SL) in another language, for example Chinese, Russian, Ukrainian, Thai and other languages.

Languages: In pathways 1, 3, 4 and 5, choose Slovak A or another Language A through SSST. With English A, this fulfils the language requirement without Group 2. English A remains required in pathways 2 and 6.

Mathematics AI: Mathematics: applications and interpretation.

Timetable planning: English A / English B and German B / Spanish ab initio are proposed parallel options.
